The Department of State External Research Program

The External Research Program of the Department of State brings to bear on foreign policy the special knowledge and insights to be found outside the Government in universities, nonprofit research organizations, and among private foreign affairs experts. Outside studies supplement the Department's own in-house research capabilities and provide independent, expert views to policy officers and analysts. The Department looks to external research to help:

- Detect or clarify situations and trends in foreign affairs.
- Anticipate international problems and opportunities.
- Review, evaluate, and plan foreign policies and programs—political, economic, social, technological, cultural, etc.
- Illuminate and improve the management, organization, and conduct of U.S. foreign relations.
- Improve and advance theory, methods, and data in disciplines and fields which bear on foreign affairs.

The Department draws on external research in a number of ways and through a variety of channels. There is a steady exchange of information and ideas between Department officials and outside specialists engaged in research on foreign affairs. Although much of this free flow takes place informally, there are several formal routes for the introduction of external research into policy:

- Study contracts with universities, research organizations, or individual specialists. A Department-wide Research Council plans and coordinates major contract studies.
- Use of private experts as consultants.
- Organization of Department research conferences, symposia, roundtables, and seminars.
- The Foreign Affairs Research Documentation Center which collects and lends a variety of research papers to Government officers.

The Department's External Research Program also benefits from and contributes to the foreign affairs research programs supported by other Government departments and agencies. This is accomplished through an interagency committee on foreign affairs research chaired by the Department of State and reporting through the Under Secretaries Committee to the National Security Council and the President.

For more information about the Department of State External Research Program, address inquiries to E. Raymond Platig, Director, Office of External Research, Department of State, Washington, D.C. 20520.

PREFACE

The *Inventory of Government-Supported Research Projects on Foreign Affairs* is prepared annually for the Under Secretaries Subcommittee on Foreign Affairs Research (USC/FAR). The subcommittee was established in 1971 pursuant to a Presidential directive that the USC assume responsibility for assuring interagency coordination of external research on foreign affairs supported by various departments and agencies of the executive branch. The Department of State's Office of External Research (XR) provides the secretariat for the subcommittee. The chart on page v depicts the various elements in the current USC/FAR system.

External research activities of concern to the USC/FAR are those involving application or advancement of the social sciences and humanities as these bear substantively on foreign areas and international relations.

The unclassified inventory consists of five volumes: I. American Republics; II. East Asia; III. Europe; IV. Near East, South Asia, and Africa; and V. International Relations.

Volumes I-IV are organized by country within each region. Projects involving the entire region or more than three countries within a region appear under the "General" heading at the beginning of the listings.

Volume V is organized under five categories of international relations: Political-social, military, economic, science and technology, and general. Projects having both national and international dimensions are cited in the appropriate regional volume and in Volume V.

Percentage estimates are provided for each project to give an indication of geographic focus, functional categories best describing the substance of the research, and purpose(s) of the research. All percentages are rough indicators of content and purpose, not precise evaluations.

Information about studies resulting from the projects is given at the end of each project citation. Studies identified by a FAR number may be borrowed from the Foreign Affairs Research Documentation Center in accordance with the procedures outlined on page iv. XR maintains the Documentation Center to collect and disseminate both reports produced under Government-supported research contracts and relevant unpublished research papers produced by individual scholars and university and other private research centers.

Other publications related to the External Research Program of the Department of State are cited on the inside back cover.

HOW TO BORROW COMPLETED STUDIES

Completed studies on file in the Foreign Affairs Research (FAR) Documentation Center and available for loan from INR/XR are noted under "Resulting Studies" in the last line of each project entry, e.g. FAR 12345, AVAILABLE FROM INR/XR.

Government Employees and Government Contractors. May borrow completed studies by filling in a Document Request Card (attached in the back of this volume) for each FAR-numbered study requested.

Private Users. May borrow any FAR-numbered study prepared under contract to the Department of State by writing or calling the FAR Documentation Center. Both the FAR number and the title should be used when requesting papers. Requests for studies prepared for other Government agencies should be made directly to the agency cited in the project entry.

CATEGORIES AND DEFINITIONS FOR USC/FAR PLANNING AND INVENTORY PURPOSES

THE USC/FAR "RESEARCH UNIVERSE"

The scope of research activities to be included in USC/FAR planning, project reporting and documentation activities is specified in the USC/FAR Terms of Reference (published in a Special Supplement to the May 1971 issue of FAR Horizons). For the convenience of officers in Member and other Agencies who supply information or documents for USC/FAR activities, pertinent excerpts from the Terms of Reference are reproduced below:

"The USC/FAR is concerned with the full range of needs of the national security foreign affairs process which may be met in whole or in part from research involving the application or advancement of the social-behavioral sciences or humanistic studies."

"The USC/FAR takes the broadest possible view of national security foreign affairs, and concerns itself not only with the political-military dimensions of national security and foreign affairs but with all geographic areas and the full range of functional dimensions of international affairs in which the distinctions between foreign and domestic affairs are increasingly blurred. Within that broad view:

"A. The USC/FAR is directly concerned with:

"1. All external (contract and grant) social-behavioral and humanistic research and studies[1/] supported by member agencies the purposes of which are:

"a. To detect or clarify situations and trends;
"b. To anticipate problems and opportunities;
"c. To review, evaluate, and plan national policies and programs—political, military, economic, social, technological, cultural, etc.;
"d. To illuminate and improve the management, organization, and conduct of national policy;
"e. To improve and advance theory, methods, and data in disciplines and fields which have a bearing on the above purposes.

"2. Such external research activities of member agencies as:

"a. Short-term or ad hoc research programs and projects;
"b. Continuing research programs conducted by Federal Contract Research Centers or other contractors or grantees;
"c. Research abroad funded through excess foreign currencies;
"d. Institutional support and other general-purpose grants to, or arrangements with, academic or other private institutions for the advancement or application of knowledge relevant to foreign affairs;
"e. Research conferences, symposia, etc.;
"f. Data and information collections, services and systems related to research.

"B. The USC/FAR is indirectly concerned (for information purposes[2/] only) with research activities in the above categories of nonmember agencies."

1/ Research and studies in the social-behavioral and humanistic fields are directed toward an understanding of human institutions and groups and of individuals as members of groups. They include research and studies of the implications for man and society of developments in the life, physical, and environmental sciences and in mathematics and engineering. The social-behavioral and humanistic disciplines and fields include: anthropology, demography, economics, geography, history, intercultural communications, international relations, law, linguistics, philosophy, political science, psychology, social statistics, sociology and various multidisciplinary combinations thereof."

2/ Currently, the information purposes of the USC/FAR are served through two activities: the inventorying of government-supported research projects in progress and operation of the Foreign Affairs Research Documentation Center.

UNITED STATES

The "U.S." region should be used only if a program plan or a project design calls for part of the research effort to be devoted to study of a U.S. attribute or an element of U.S. behavior. For example, a study of U.S. troop-community relations in Korea would presumably call for some research attention to aspects of the U.S. as well as of Korea. The same could be said of an evaluation of the program of a bi-national center in Peru or of U.S. trade with the EC. However, if a study focuses all research attention upon aspects of Korean culture, or elements of Peruvian society or upon EC tariff structures, it would not include a U.S. element even though the purpose of the study might well be to assist in the formulation or implementation of U.S. policies or programs. The essential distinction is between content and purpose. The U.S. region should be given some weight only if the content of the project or program focuses in some part upon U.S. behavior or attributes.

GLOBAL

The "Global" region should be used only under two circumstances; the existence of either one justifies putting 100% (rarely a smaller portion) of the program or project in the Global category. First, the Global category should be used if a study focuses upon matters that are essentially world-wide in scope. For example: weighted voting in the UN, the international law of the sea, population and political developments, foreign attitudes toward the U.S. Second, the Global category may be used as a convenience when a research topic or project embraces a number of the other nine regions in ways that make it difficult to specify the emphasis on each. For example: Comparative Evaluation of Community Development Programs in LDC's; Prospects for a Five Power World in 1980.

* Prior to FY 1975, projects relating to this country were cited under Near East and South Asia.

** Prior to FY 1975, projects relating to this country were cited under Africa.

II - FUNCTIONAL CATEGORIES

There are five major functional categories. These are Political-Social, Military, Economic, Science-Technology, and General. The first three of these major categories contain a number of more specific functional categories yielding a total of 37 specific categories. Eighteen of the specific categories deal with aspects of life within nations and are therefore grouped together under the heading National Affairs. The remaining 19 specific categories deal with types of relations between nations or between elements within different nations and are therefore grouped together under the heading International Relations. Each of the 37 specific functional categories is defined below. To use these definitions most effectively, precede each statement with the phrase, "Does the research deal with. . ."

THIS GRANT WILL ASSIST PROGRAMMING AND RUNNING THE SIMULATION, AND THE CONDUCT OF POLICY EXPERIMENTS, IN WHICH THE BEHAVIOR OF DECISION-MAKERS WILL BE SIMULATED IN A VARIETY OF CRISIS AND NON-CRISIS SITUATIONS.

AIM IS TO DETERMINE RELEVANCE FOR CURRENT SOCIAL LIFE AND NATIONAL INTEGRATION OF THE CULTURAL TRADITIONS THESE GROUPS BROUGHT WITH THEM FROM THEIR COUNTRIES OF ORIGIN. THE CONCERN IS WITH ETHNICALLY SPECIFIC STRATEGIES FOR ADAPTATION TO THEIR NEW SITUATION, INVOLVING STUDY OF DIFFERENCES IN BEHAVIOR AND DECISION-MAKING, AND IN REACTIONS TO AND INTEGRATION WITHIN ISRAEL. AND (2) WHAT DIFFERENTIATES THOSE DIPLOMATIC CONFLICTS AND CRISES WHICH END UP IN WAR FROM THOSE WHICH DO NOT? AMONG THE ECOLOGICAL ARE: (A) THE PHYSICAL, STRUCUTRAL, AND CULTURAL ATTRIBUTES OF THE INTERNATIONAL SYSTEM, (B) THOSE OF THE NATIONS THEMSELVES, AND (C) THE PRE-CONFLICT RELATIONSHIPS AND BONDS BETWEEN AND AMONG NATIONS. THE BEHAVIORAL VARIABLES EMBRACE THE ACTIONS OF THE NATIONS INVOLVED IN THE CONFLICTS WHICH ENDED IN WAR AND A MATCHED SAMPLE OF THOSE WHICH DID NOT END IN WAR. THESE SETS OF VARIABLES ARE USED IN A NUMBER OF THEORETICAL SUB-MODELS, WHICH ARE THEN PUT TO THE EMPIRICAL TEST IN THE INTERNATIONAL SYSTEM OF 1816-1965.

SCOPE: TWO MAJOR QUESTIONS ARE EXPLORED USING BOTH ECOLOGICAL AND BEHAVIORAL VARIABLES: (1) UNDER WHAT CONDITIONS IS THE INTERNATIONAL SYSTEM MOST WAR-PRONE? AND (2) WHAT DIFFERENTIATES THOSE DIPLOMATIC CONFLICTS AND CRISES WHICH END UP IN WAR FROM THOSE WHICH DO NOT? AMONG THE ECOLOGICAL ARE: (A) THE PHYSICAL, STRUCUTRAL, AND CULTURAL ATTRIBUTES OF THE INTERNATIONAL SYSTEM, (B) THOSE OF THE NATIONS THEMSELVES, AND (C) THE PRE-CONFLICT RELATIONSHIPS AND BONDS BETWEEN AND AMONG NATIONS. THE BEHAVIORAL VARIABLES EMBRACE THE ACTIONS OF THE NATIONS INVOLVED IN THE CONFLICTS WHICH ENDED IN WAR AND A MATCHED SAMPLE OF THOSE WHICH DID NOT END IN WAR. THESE SETS OF VARIABLES ARE USED IN A NUMBER OF THEORETICAL SUB-MODELS, WHICH ARE THEN PUT TO THE EMPIRICAL TEST IN THE INTERNATIONAL SYSTEM OF 1816-1965.

SCOPE: DESCRIBES THE PATTERN OF PETROLEUM IMPORTS TO THE U.S. FOR THE 1980, 1985, AND 1990 TIME PERIODS AND ANALYZES THE POTENTIAL MILITARY THREATS WHICH COULD ALTER THOSE IMPORT PATTERNS. DEMAND AND SUPPLY PROJECTIONS FOR THE WORLD ENERGY MARKET ARE SHOWN, FROM WHICH U.S. IMPORTS OF CRUDE OIL AND REFINED PRODUCTS ARE DERIVED. AN ANALYSIS OF THE LOSS OF MIDDLE EAST PETROLEUM IMPORTS RESULTING FROM VARIOUS MILITARY ACTIONS DIRECTED AT VARIOUS LINKS IN THE LINE OF SUPPLY IS DESCRIBED IN DETAIL. THESE MILITARY ACTIONS WERE DEVELOPED INDEPENDENTLY OF SPECIFIC SCENARIOS, THEREFORE, THE CONCLUSIONS PERTAINING TO THE POTENTIAL LOSS OF IMPORTS SHOULD BE CONSIDERED AS INPUTS TO SCENARIOS CONSTRUCTED FOR THE FEA IN OTHER ANALYSES.

SCOPE: THE 1973-74 ARAB OIL EMBARGO SUGGESTED THE VULNERABILITY OF RELATIVELY OPEN INTERNATIONAL MARKETS FOR VITAL COMMODITIES, AND THE SUBSEQUENT POLITICAL PRESSURES FOR PRICE CONTROLS AND RATIONING OF SCARCE SUPPLIES OF OIL SUGGESTED THE VULNERABILITY OF OPERATING PRINCIPLES OF MARKET ADJUSTMENT WHEN A SINGLE VITAL COMMODITY MARKET IS THRUST INTO THE CENTER OF POLICY ATTENTION. THESE RELATED PROBLEMS MAY BE LISTED AS (1) POLITICAL ECONOMY OF MARKET INDEPENDENCE, AND (2) POLITICAL ECONOMY OF MARKET INTERVENTION. THE FIRST EXAMINES TRADE-OFFS BETWEEN ADMITTED EFFICIENCY GAINS FROM INCREASED INTERDEPENDENCE AND COSTS INHERENT IN INCREASED VULNERABILITY; THE SECOND SEEKS TO DEVELOP "GENERAL PRINCIPLES" OF MARKET INTERVENTION: UNDER WHAT CONDITIONS ARE LEGISLATURES LIKELY TO SUBSTITUTE GOVERNMENTAL FOR MARKET ALLOCATION AND WHAT FORM WILL THE ALTERNATIVE TAKE?

DEMAND AND SUPPLY PROJECTIONS FOR THE WORLD ENERGY MARKET ARE SHOWN, FROM WHICH U.S. IMPORTS OF CRUDE OIL AND REFINED PRODUCTS ARE DERIVED. AN ANALYSIS OF THE LOSS OF MIDDLE EAST PETROLEUM IMPORTS RESULTING FROM VARIOUS MILITARY ACTIONS DIRECTED AT VARIOUS LINKS IN THE LINE OF SUPPLY IS DESCRIBED IN DETAIL. SCOPE: STUDY INVESTIGATES MONETARY LINKAGES AMONG THE PRINCIPAL INDUSTRIAL COUNTRIES. OBJECTIVE IS TO DETERMINE TO WHAT EXTENT AND THROUGH WHAT CHANNELS FOREIGN MONETARY CONDITIONS INFLUENCE CONDITIONS IN EACH DOMESTIC MARKET. THE STUDY DEVELOPS A SYSTEM OF EQUATIONS EXPLAINING JOINT DETERMINATION OF PRINCIPAL NATIONAL AND INTERNATIONAL INTEREST RATES. STRUCTURAL MODELS OF THE MONEY MARKETS IN EACH OF THE MAJOR INDUSTRIAL COUNTRIES ARE CONSTRUCTED TO ANALYZE THE MONETARY DECISIONS OF THE PUBLIC AND MONETARY AUTHORITIES. EQUATIONS OF THE STRUCTURAL MODELS EXPLAIN SIMULTANEOUSLY THE DEMAND AND SUPPLY OF BANK MONEY, INTERNATIONAL CAPITAL MOVEMENTS, AND THE SUPPLY OF BANK RESERVES. ALSO, SPECIAL EMPHASIS IS PLACED ON THE EURO-DOLLAR MARKET.

(2) WORK IS CONTINUED ON A MACRO MODEL WITH MONEY, BONDS, CAPITAL AND CURRENT OUTPUT. THE MODEL IS EXTENDED TO INCLUDE AN OPEN ECONOMY WITH TRADE AND CAPITAL MOVEMENTS (BORROWING AND LENDING). SCOPE: PROJECT WILL TEST HYPOTHESES DRAWN FROM ASSUMPTION THAT INTERNATIONAL BEHAVIOR OF STATES IS PARTLY EXPLAINED BY DOMESTIC AND INTERNATIONAL REFERENCE GROUPS WITH WHICH THE AUTHORITATIVE LEADERS OF STATES DEAL. THE REFERENCE GROUP PERSPECTIVE GROWS OUT OF ATTEMPT TO SUPPLEMENT EXISTING EMPIRICAL INTERNATIONAL RELATIONS THEORY SO IT CAN DEAL WITH ANOMALIES PRODUCED BY CONTEMPORARY CONDITIONS. IT IS SUGGESTED THAT A PERSPECTIVE THAT TAKES INTO ACCOUNT THE IMPORTANCE OF INTERNATIONAL ISSUES AND THE ROLE OF MULTIPLE INTERNAL AND EXTERNAL INFLUENCERS ON THE INTERNATIONAL BEHAVIOR OF STATE CAN ADD EXPLANATORY POWER TO THE WORK OF THOSE MODELLING INTERNATIONAL CONFLICT AND INTEGRATION. IT CAN ALSO CONTRIBUTE TO THE WORK OF THOSE INVOLVED IN COMPARATIVE STUDY OF FOREIGN POLICY.

RESEARCH WILL FOCUS ON THREE RELATED TASKS: (1) FURTHER DEVELOPMENT OF THE OPERATIONAL CODE CONSTRUCT; (2) PREPARATION OF RIGOROUS METHODOLOGICAL GUIDELINES; AND (3) CASE STUDIES OF AMERICAN FOREIGN POLICY DECISIONS.
